Platform for Integration of Trans regional Energy R&D activities

PITER Final Seminar

Brussels, 14 December 2010

Future and perspectives for the Regions
working on Energy R&D domain

Seventh Framework Program for research and technological development,
Capacities program, Regions of knowledge.

Context

PI TER is a Franco-Italian cooperative project of the FP7 "Regions of knowledge" program, implemented by 5 partners: 2 regional authorities (Région Rhône-Alpes and Regione Piemonte), 2 clusters (Tenerrdis and Environment Park) and a project management consultancy (Alma Consulting Group).

The Objective of this project is to promote renewable energies through joint actions in R&D, and common political and economical strategies.

Event

During this final seminar we will present the work done during the past two years of PITER project.

At the event important updates on the future European programs will be delivered, and will provide a suitable occasion for identifying opportunities to launch new initiatives in the energy sector.

Place

Alps-Mediterranean Euroregion Head Office
62 rue du Trône – Brussels

Program

- 9:00 Registration
- 9:30 Welcome & Introduction (*Olivier Brunet - Chairman*)
