Reporting and requests for payment

1. Each PP may only request, via the LP, payments of the contribution from the European Regional Development Fund (hereinafter referred to as ERDF) by providing proof of progress of its respective part(s) of the project towards the achievement of the outputs and results as set in the approved application form, in compliance with the principle of sound financial management (as determined by the principles of economy, efficiency and effectiveness) and by demonstrating the utility derived from any purchases. To this purpose, each PP commits to providing the LP with complete and accurate information needed to draw up and submit joint progress reports and, where possible, the main outputs and deliverables obtained in line with the approved application form. Joint activity reports and joint finance reports shall be submitted to the MA/JS following the procedures set in the programme manual and in observation of deadlines set in the overview table of reporting targets and deadlines enclosed to the subsidy contract (see annex 2).
2. In addition, in order to allow the LP to submit to the MA payment requests, enclosed to the joint finance reports, every PP shall submit to the LP its certificates confirming the eligibility of expenditure, following verifications performed according to § 10.

3. In order to meet the deadlines mentioned in § 9.1, each PP commits itself to deliver to the LP the necessary information and documents 15 working days before the deadlines set in the subsidy contract for submitting the concerned periodic joint progress reports.
4. Requests for postponement of the reporting deadlines may be granted only in exceptional and duly justified cases. They shall be asked by the LP to the MA via the JS at the latest one week prior to the due deadline.
5. In line with § 11.5 of the subsidy contract, the LP shall confirm that the expenditure reported by each PP has been incurred by the PP for the purpose of implementing the project, that it corresponds to the activities laid down in the approved application form and that it has been verified by the national controller.
6. If the LP casts doubts on the project relevance of any expenditure items claimed by a PP, the LP shall clarify the issue with the concerned PP with the aim of finding an agreement on the expenditure to be claimed and the corresponding activities to be reported as project-relevant. In the case that such agreement cannot be found, the procedure as stated in the programme manual will be followed.
7. Payments not requested in time and in full or non in compliance with the payment schedule as indicated in the overview table of reporting targets and deadlines annexed to the subsidy contract may be lost. In case of decommitment of funds § 18.4 applies.
8. In order to proceed with the analysis of periodic joint progress reports, each PP must provide additional information if the LP or the MA/JS deem that necessary. Additional information requested by the MA/JS are to be collected and sent by the LP within the demanded time frame.
9. The MA reserves the right not to accept - in part or in full - certificates of expenditure as described in § 10 of this agreement, in line with provisions of § 6.4 of the subsidy contract.
10. Following the approval of the joint finance report by the MA/JS and the respective ERDF funds have been transferred to the LP account, unless otherwise specified in the partnership agreement, the LP shall forward the respective ERDF share to each PP without any delay and in full to their bank accounts as indicated in Annex 3. Changes of the account number shall be duly notified to the LP.
11. The maximum acceptable delay for transferring the ERDF to the PPs is of 10 working days. In exceptional and duly justified cases, LPs which are public authorities may benefit from an extension of the aforementioned deadline in order to comply with internal administrative procedures in transferring public funds. In case of unjustified delays in the transfer of ERDF funds to the PPs which are imputable to the LP, the PPs may claim interest rates which the LP shall exclude from the approved project budget.
12. The LP shall provide all PPs with copies of any report and documentation submitted to the MA/JS and keep the PPs informed about all relevant communication with MA or JS, in line with § 11.7 of the subsidy contract.
13. Details on the contents of the reports on the verification of expenditure, on the reimbursement of funds and on the related procedural rules are laid out in the programme manual, the contents of which each PP accepts.
14. The funds will be disbursed in Euro. If bank accounts are denominated in other currencies than Euro, any costs or losses due to currency exchange rates are covered by the recipient of the payment. All costs of dispatch/receipt or similar charged by the bank and costs for repeated transfers are covered by the recipient of the payment. If the bank account of a PP changes, the new bank account details need to be communicated in a timely manner to the LP.

§ 10

Verification of expenditure

1. Each joint finance report submitted by the LP to the MA via the JS must be accompanied by certificates confirming the eligibility of expenditure, both at the LP and the PPs level, issued by national controllers as referred to in Article 46(3) of the Interreg Regulation, according to the system set up by each Member State and in compliance with the requirements set by the legal framework listed in § 1 of

the subsidy contract. Certificates of expenditure shall be accompanied by the compulsory elements presented in the programme manual (i.e., the control report and checklist). The project partners shall deliver all necessary documents in order to enable the LP to fulfil its obligations. To this end, the partnership may agree on internal rules and delivery procedures.

2. National controllers will base their work on the rules provided by each Member State and the requirements set in the respective EC Regulations and in the programme manual.
3. PPs from countries having set a decentralised control system ensure that controllers were selected in accordance with the system set up by each Member State and they meet the requirements of qualification and independence presented in the programme manual. Furthermore, these PPs acknowledge that the MA reserves the right, after agreement with the national responsible institution, to require that the controller directly selected by a PP is replaced if considerations, which were unknown when the subsidy contract was signed, cast doubts on the controller's independence or professional standards.
4. Each PP is to notify to the LP on its national controllers that, in accordance with the system set up by each Member State, shall carry out the verification of the expenditure of the PP. National controllers are identified in the Jems.
5. Any change of control authority/institution or name of controller(s) shall be duly notified to the LP who has subsequently to notify the MA via the JS.

§ 11

Project modifications

1. Project modifications shall be requested by the LP in accordance with the rules and procedures stated in the programme manual. Where relevant, in order to come into effect, modifications must be approved by the relevant programme body/ies.
2. In the application documents the contribution of the LP and each PP are clearly defined. Changes in the project partnership require the prior approval of the relevant programme bodies as outlined in the programme manual. However, once approved, they are valid retrospectively starting from the date indicated in the written approval given by the JS.
3. With regard specifically to budget modifications, each PP may only apply changes in its approved budget if they comply with the flexibility rules stated in the programme manual and if prior approval from the LP or the programme bodies has been provided, as appropriate. To this purpose, each PP shall timely inform the LP on any request of revision of its budget in respect to its original commitment.
4. In case of changes in the partnership, this partnership agreement shall be amended accordingly and signed by the LP and the PPs, including the new PP (if applicable).

§ 12

Communication and branding

1. The LP and the PPs shall ensure adequate promotion of the project both towards potential beneficiaries of the project results and towards the general public.
2. Unless the MA requests otherwise, any notice or publication made by the project including presentations at conferences or seminars, shall point out that the present project was implemented through financial assistance from ERDF funds of the Interreg CENTRAL EUROPE Programme, as required by Annex IX of Regulation (EU) 2021/1060 (hereinafter referred to as CPR). All information, communication and branding measures of the project shall be carried out in accordance with the aforementioned rules, the latest version of the approved application form, the programme manual and any other guidelines issued by the programme on the matter. The LP shall take care that the PPs comply with these requirements and provide them with relevant documents and any programme guidelines.

3. The LP must ensure that all the PPs and itself respect the additional branding requirements as laid down in the programme manual which forms an integral part of this agreement.
4. Each PP shall ensure that any notice or publication relating to the project made in any form and by any means, including digital and online, states that it only reflects the author's view and that the programme authorities are not liable for any use that may be made of the information contained therein.
5. All PPs also take the full responsibility for the content of any notice, publication and marketing product provided to the MA which has been developed by the PPs or third parties on behalf of the PPs. The PPs are liable in case a third party claims compensation for damages (e.g. because of an infringement of intellectual property rights). The PPs will indemnify the LP in case the LP suffers any damage because of the content of the publicity and information material.
6. Each PP shall comply with all publicity, communication and branding obligations (e.g. on the use of the programme logo, information requirements, organisation of events etc.) as further specified in the programme manual and any other guidelines issued by the programme on the matter.
7. In line with Article 49 (3) of the CPR, the MA is authorised to publish the following information:
 - (a) name of the LP and its PPs;
 - (b) name of the project;
 - (c) the project summary including project purposes and its expected achievements;
 - (d) abstract of progress reports with the project actual achievements;
 - (e) start date of the project;
 - (f) expected or actual date of completion of the project;
 - (g) the ERDF funding and the total cost of the project;
 - (h) the programme specific objective concerned;
 - (i) the location indicator or geolocation for the project and the countries concerned;
 - (j) the location of the LP and its PPs;
 - (k) the type of intervention for the project in accordance with point (g) of Article 73 (2) of the CPR.
8. The MA is entitled to furthermore use these data for information and communication purposes as listed in Annex IX of the CPR, cited in § 1 of the subsidy contract.
9. The MA on behalf of the MC and of other programme promoters at national level is entitled to use the outputs and results for information and communication actions in respect of the programme. All PPs agree that information about outputs is forwarded by the MA to other programme authorities as well as the Member States taking part in the programme to use this material to showcase how the subsidy is used.
10. For the purpose of meeting the objectives as set out in § 9.1 of this agreement, each PP shall provide evidence of the deliverables and outputs produced as further specified in the programme manual.
11. The LP shall ensure that communication and visibility material including at the level of PPs is made available upon request to the MA (and further to EU institutions, bodies, offices or agencies) and that a royalty-free, non-exclusive and irrevocable licence to use such material and any pre-existing rights attached to it is granted to the MA (and further EU institutions, bodies, offices or agencies) in accordance with Annex IX of the CPR.
12. A PP planning to disseminate its own results must notify the other PPs and the LP prior to its submission or publication and providing them with the planned publication. The other PPs and the LP may comment within twenty (20) calendar days from receipt of the notification, but may not change content and conclusions of a publication.
13. Notwithstanding § 12.12. above, any publication which involves confidential information or (joint) results of other PP or the LP requires the prior written consent the PP and the LP concerned. Such consent shall not be unreasonably withheld. Each PP and the LP shall have the right to refuse its consent to the publication until an application for intellectual property rights (background IPR or results) protection has been filed, but in no event for a period exceeding two (2) months from submission of the proposed publication. If the proposed dissemination activity contains confidential or proprietary information of another PP, this PP shall have the right to demand that the confidential or proprietary information is deleted from the publication or another adequate measure. Unless a PP,

within twenty (20) calendar days of receipt of the documentation of a proposed publication (electronically sufficient), objects to such publication or demands that confidential or proprietary information to be deleted, its consent shall be deemed granted.

14. If a party to this agreement is a research institute or a university, and with regard to its legal obligations, such party is entitled to publish the results of the work in the usual academic research form and to use them in research and teaching. The other parties to this agreement acknowledge the fundamental obligation of the research institute or the university to publish the nature, subject and results of the work carried out under this agreement at the research institute or a university.
15. Students and doctoral candidates who cooperate in the Project are entitled to list the work results in the respective examination paper and to submit them to the respective competent body in such a way that the relevant procedural requirements for obtaining the sought degree are satisfied. The applicable examination regulations shall take precedence over all other arrangements under this Agreement regarding deadlines and timelines.

§ 13

Assignment, legal succession

1. The LP and the PPs, in exceptional cases and in well-founded circumstances, are allowed to assign their duties and rights under this agreement only after prior written consent of the programme bodies and in compliance with the procedure for project modification specified in the programme manual.
2. Where according to national laws the legal personality does not change and where all assets of a PP are taken over so that a deterioration of the financial capacity of the acquiring institution is not to be expected (i.e. in cases of universal succession) prior consent by the MA is not necessary. However, the concerned PP shall submit in due time to the MA/JS via the LP related information together with all documents that are necessary to analyse the legal case. If the MA/JS comes to the conclusion the conditions as stated above are not fulfilled (e.g. in cases of a singular succession), the LP will be informed that a project modification procedure as stated in § 13.1 has to be initiated.
3. In case of assignment or any form of legal succession of the LP or PP, the LP or the concerned PP is obliged to assign all rights and obligations and all project related documents to each and any assignee or legal successor. Related reports to the MA/JS as requested in the programme documents have to be forwarded by the LP.
4. In case § 13.1 applies, the present agreement shall be amended accordingly.

§ 14

Cooperation with third parties and outsourcing

1. In the event of outsourcing, the PPs must abide by EU, national and programme rules on public procurement and shall remain the sole responsible parties towards the LP and, through the LP, to the MA concerning compliance with their obligations by virtue of the conditions set forth in this agreement including its annexes.
2. In case of financial involvement of associated partners, this must not enter in conflict with public procurement rules. Expenditure incurred by the associated partners shall be finally borne by any of the PPs or by the LP in order to be considered as eligible and on condition that this is allowed by national or programme rules.

§ 15

Liability

1. According to § 10 of the subsidy contract, the LP bears the overall financial and legal responsibility for the project and for the PPs towards the MA and third parties.

2. Within the partnership, each party to this agreement shall be liable to the other parties and shall indemnify and hold harmless such other party for and against any liabilities, damages and costs resulting from the non-compliance of its duties and obligations as set forth in this agreement and its annexes or of other legal norms. Eventual repayment of undue funds by the PPs to the LP, for which the LP is liable towards the MA is ruled in § 18 of the present agreement.
3. The LP shall assume sole liability towards third parties, including liability for damage or injury of any kind sustained by them while the project is being carried out as stipulated in § 10.9 of the subsidy contract. The LP is entitled to subrogate against the PP that caused the damage. The PP causing damage shall be liable to the LP therefore.
4. The parties to this agreement accept that the MA cannot be under any circumstances or for any reason whatsoever held liable for damage or injury sustained by the staff or property of the LP or any PP while the project is being carried out. No claims can be accepted by the MA for compensation or increases in payment in connection with such damage or injury.
5. No party shall be held liable for not complying with obligations ensuing from this agreement in case of force majeure as described in § 24 of this agreement.

§ 16

Non-fulfilment of obligations

1. Each PP is obliged to promptly inform the LP and provide all necessary details should there be any event that could jeopardise the implementation of the project.
2. Each PP is directly and exclusively responsible towards the LP and the other PPs for the due implementation of its part(s) to the project as described in the approved application form as well as for the proper fulfilment of its obligations as set out in this agreement. Should a PP not fulfil its obligations under this agreement in due time, the LP shall admonish the PP to fulfil such obligations within reasonable deadlines set by the LP. The LP shall make any effort in resolving the difficulties, including seeking the assistance of the MA/JS. Should the non-fulfilment continue, the LP may decide to exclude the PP concerned from the project prior approval of the other PPs. The MA and JS shall be immediately informed of such an intended decision.
3. The excluded PP is obliged to refund to the LP any programme funds received for which it cannot prove that, on the day of exclusion, ERDF received for the project was used for activities carried out, and deliverables/outputs obtained, for the benefit of the project and that such activities and deliverables/outputs can be used for the further implementation of the project. The excluded PP is liable to compensate any damage to the LP and the remaining PPs due to its exclusion.
4. The excluded PP has to keep documents for audit purposes according to what stated in § 6.3 of this agreement.
5. The LP and all PPs herewith oblige themselves to compensate each other for those damages that may result from intentional or gross negligence, non-performance or mal-performance of any of their obligations under the present agreement.
6. In case of non-fulfilment of PP obligations having financial consequences for the funding of the project as a whole, the LP may demand compensation from the responsible PP to cover the sum involved.

§ 17

Financial controls, audits

1. The European Commission, the European Anti-Fraud Office (OLAF), the European Court of Auditors (ECA) and, within their responsibility, the auditing bodies of the participating EU Member States or other national public auditing bodies as well as the Programme audit authority, the MA and the JS are entitled to audit the proper use of funds by the LP or by its PPs or to arrange for such an audit to be

carried out by authorised persons. The LP and PPs will be notified in due time about any audit to be carried out on their expenditure.

2. Each PP undertakes all the necessary actions to comply with the fundamental requirements indicated in this agreement, the subsidy contract, the applicable laws and programme documents (programme manual and the call-specific Terms of Reference), which are an integral part of this agreement, to provide for comprehensive documentation on compliance with those norms and the accessibility to this documentation in line with § 6.4. Besides the obligations with regard to reporting and information each PP particularly:
 - a. Keeps all documents and data required for controls and audits safely and orderly;
 - b. Makes all necessary arrangements to ensure that any audit, notified by a duly authorised institution as indicated in § 17.1 can be carried out smoothly; and
 - c. Provides any requested information to these institutions about the project and gives access to their business premises, provides and gives access to all the information and documents supporting the audit trail as requested in the European Structural and Investment Funds Regulations, delegated and implementing acts and the programme manual.
3. Each PP shall promptly inform the LP about any audits that have been carried out by the bodies mentioned in § 17.1 of this agreement.
4. If, as a result of the controls and audits any expenditure is considered non eligible according to the regulatory framework as in § 1 of the subsidy contract, the procedure described in § 18 and § 9.9 of this agreement shall apply.

§ 18

Withdrawal or recovery of unduly paid-out funds, decommitment of funds

1. Should the MA in accordance with the provisions of the subsidy contract, the programme manual and § 9.9 of this agreement, demand the repayment of subsidy already transferred to the LP, every PP is obliged to transfer its portion of undue paid out amount to the LP in compliance with Article 52 (1) of Regulation (EU) 2021/1059. The LP shall, without delay, forward the letter by which the MA has asserted the repayment claim and notify every PP of the amount repayable. Alternatively and when possible, the repayment amount will be offset against the next payment of the MA to the LP or, where applicable, remaining payments can be suspended. In case repayment is deemed as necessary, this repayment is due within one month following the date of the letter by which the MA asserts the repayment claim to the LP. The LP shall be entitled to set an internal deadline to the concerned PPs in order to meet the MA requests. The amount repayable shall be subject to interest according to § 13.3 of the subsidy contract. Further provisions of the subsidy contract shall apply by analogy.
2. In case the PP does not repay the LP the irregular amounts by the deadline specified in the recovery letter, the LP informs the MA without delay. In duly justified cases, the MA informs the Member State, on whose territory the PP concerned is located in order to recover the unduly paid amounts from this Member State. Therefore, the respective Member State is entitled to claim the unduly paid funds that have been reimbursed to the MA from the PP.
3. In case that no PP can be held responsible for the request for repayment, the amount to be repaid shall be apportioned between all PPs pro rata to their project budget share.
4. Bank charges incurred by the repayment of amounts due to the MA via the LP shall be borne entirely by the concerned PPs.
5. If decommitment of funds apply in compliance with § 9.7 and provisions of the programme manual, the PPs herewith agree that the deduction shall be imputed to those PPs that have contributed to the decommitment of funds unless a different decision is taken by the MC. Deduction of funds shall be done in a way not to jeopardise future involvement of PPs and implementation of activities.

§ 19

Ownership - Use of outputs

1. Ownership, title and industrial and intellectual property rights in the results of the project and the reports and other documents relating to it shall, depending on the applicable national law, vest in the LP and/or its PPs.
2. Where several members of the partnership (LP and/or PPs) have jointly carried out work generating outputs and where their respective share of the work cannot be ascertained, they shall have joint ownership on it/them.
3. In case of joint ownership, the following provisions shall apply:

Inventions jointly made by employees of several members of the partnership (LP and/or PP) during the term of this Agreement and in the field of the Project shall be claimed by the Parties vis-à-vis their employees without restriction, to the extent legally and factually possible. These shall then be jointly registered for intellectual property rights in the name of the members concerned. The members shall inform each other thereof without undue delay, reach a mutual agreement on the respective inventor's shares and document the result of this agreement in writing. Such intellectual property rights shall be jointly owned by the members concerned. The costs incurred shall be borne by the members concerned in proportion to their shares in the invention. The members shall consult with each other no later than three months before the expiry of the priority period and agree on the countries in which corresponding foreign intellectual property rights are to be registered.

If one member does not wish to apply for an intellectual property right for inventions pursuant to the foregoing or does not wish to continue or maintain an intellectual property right it applied for, it shall inform the other members concerned, who may then in turn - in each case against payment of a compensation equivalent to the market price within the meaning of the EU Framework on State Aid for Research and Development to the relevant member - apply for an intellectual property right for the respective invention or continue or maintain the applied for intellectual property right at its own expense.

These provisions shall be in line with § 25.7 of this Agreement.

4. The ownership of outputs having the character of investments in infrastructure or productive investments realised within the project must remain with the concerned LP and/or PPs according to the timeframe as well as under the conditions set in Article 65 of the CPR. Should any of the conditions set by the mentioned Regulation not be met at a certain point of time, the MA/JS must be immediately informed by the concerned LP or PP. The MA will recover the unduly paid ERDF contribution in proportion to the period for which the requirements have not been fulfilled.
5. The MA reserves the right to use the outputs and results for information and communication actions in respect of the programme.

§ 20

Confidentiality

1. Although the nature of the implementation of the project is public, information exchanged in the context of its implementation between the LP and the PPs, the PPs themselves or the MA/JS shall be confidential.
2. The LP and the PPs commit to taking measures to ensure that all their respective staff members involved in the project respect the confidential nature of this information and do not disseminate it, pass it on to third parties or use it without prior written consent of the LP and the PP institution that provided the information.

§ 21

Disputes between partners

1. In case of dispute between the LP and its PPs or among PPs, presumption of good faith from all parties will be privileged.
2. Should a dispute arise between the LP and its PPs or among PPs, the affected parties will endeavour to find a solution on an amicable way. Disputes will be referred to the project steering committee in order to reach a settlement.
3. The LP will inform the other PPs and may, on its own initiative or upon request of a PP, ask advice to the MA/JS.
4. Should a compromise through mediation in the framework of the project steering committee not be possible, the parties herewith agree that Munich shall be the venue for all legal disputes arising from this agreement.

§ 22

Working language

The working language of the partnership shall be English.

1. Any official internal document of the project and all communication to the MA/JS shall be made available in English, being the official language of the Interreg CE Programme.
2. The present agreement is concluded in English. In case of translation of the present agreement into another language, the English version shall be the binding one.

§ 23

Force majeure

1. Force majeure shall mean any unforeseeable and exceptional event affecting the fulfilment of any obligation under this agreement, which is beyond the control of the LP and PPs and cannot be overcome despite their reasonable endeavours (e.g. substantial changes due to changes in political or financial terms). Any default of a product or service or delays in making them available for the purpose of performing this agreement and affecting the project performance, including, for instance, anomalies in the functioning or performance of product or services, labour disputes, strikes or financial difficulties do not constitute force majeure.
2. If the LP or PPs are subject to force majeure liable to affect the fulfilment of its/their obligations under this agreement, the LP shall notify the MA via the JS without delay, stating the nature, likely duration and foreseeable effects.
3. Neither the LP nor the PPs shall be considered to be in breach of their obligations to execute the project if it has been prevented from complying by force majeure. Where LP or PPs cannot fulfil their obligations to execute the project due to force majeure, grant for accepted eligible expenditure occurred may be made only for those activities which have actually been executed up to the date of the event identified as force majeure. All necessary measures shall be taken to limit damage to the minimum.

§ 24

Lapse of time

1. Legal proceedings concerning any issue ensuing from this agreement may not be lodged before the courts more than three years after the claim was constituted unless the chosen applicable law as in § 25.7 of this agreement states differently.

§ 25

Concluding provisions

1. All cited laws, regulations and programme documents mentioned in this agreement are applicable in their latest valid version.
2. If any provision in this agreement should be wholly or partly ineffective, the parties to this agreement undertake to replace the ineffective provision by an effective provision which comes as close as possible to the purpose of the ineffective provision.
3. In case of matters that are not ruled by this agreement, the parties agree to find a joint solution.
4. Amendments and supplements to this agreement must be in written form and have to be indicated as such. Consequently, any changes of this agreement shall only be effective if they have been agreed on in writing and have been designated as amendment of or supplement to the agreement.
5. The LP and all PPs ensure that in case of modification of provisions mentioned in § 1 of the subsidy contract, updated rights and obligations derived thereof shall apply.
6. Any costs, fees or taxes not eligible or any other duties arising from the conclusion or the implementation of this agreement shall be borne by the LP and PPs.
7. This agreement is governed by and construed in accordance with the laws of Germany. Thus, the laws of Germany excluding its conflict of law provisions shall apply to all legal relations arising in connections with this agreement.
8. To the effect of this agreement, the PPs shall irrevocably choose domicile at their addresses stated in the partner section of the application form (Annex 1 to this agreement) where any official notifications can be lawfully served.
9. Any change of domicile shall be forwarded by the concerned PP to the LP within 15 days following the change.
10. The present agreement must be signed by the LP and all PPs and evidence of the signature has to be provided at the latest within three months after the entering into force of the subsidy contract between the MA and the LP, following the procedures described in the programme manual.
