Veniamo da un altro anno che non ci ha dato respiro, dove abbiamo fatto ogni sforzo possibile per aiutare la nostra Regione a uscire dall'emergenza sanitaria a cui il Covid ci sta sottoponendo.

Per cui credo non ci sia simbolo o immagine più bella, da imprimere sulle pagine di questa agenda che dà inizio al 2022, che quella dei nostri splendidi Parchi.

A ognuno di voi, grazie per ciò che fate ogni giorno.

Adesso un respiro profondo e torniamo al lavoro.  
Per il nostro Piemonte.

Il Presidente  
della Regione Piemonte  
Alberto Cirio

A handwritten signature in black ink, which appears to read "Alberto Cirio".

## I PARCHI PIEMONTESI

Le Aree naturali protette regionali e i siti della Rete Natura 2000 sono gestiti da dieci enti strumentali della Regione Piemonte denominati "enti di gestione". L'estensione complessiva delle aree tutelate comprese nella rete ecologica regionale è di circa 460mila ettari di territorio protetto, pari a più del 18% del territorio piemontese. Sul sito della Regione Piemonte è possibile scaricare tutte le informazioni (cartografie, contatti, siti istituzionali, relazioni annuali) ai seguenti link:

<https://www.regione.piemonte.it/web/temi/ambiente-territorio/biodiversita-aree-naturali/parchi/gli-enti-gestione-delle-aree-naturali-protette>

<https://www.regione.piemonte.it/web/temi/ambiente-territorio/biodiversita-aree-naturali/rete-natura-2000>

## **ALPI MARITTIME**

*<http://www.areasprotettealpimarittime.it/>*

Le Aree protette delle Alpi Marittime comprendono due parchi naturali (Alpi Marittime e Marguareis), otto riserve e venti siti della Rete Natura 2000. Sono ben ventiquattro le cime oltre i 3000 metri.

## **APPENNINO PIEMONTESE**

*<https://www.areasprotetteappenninopiemontese.it/>*

Le Aree naturali protette dell'Appennino piemontese comprendono due parchi naturali (Capanne di Marcarolo e Alta Val Borbera), una riserva (Neirone), oltre a sette siti della Rete Natura 2000. Nelle Valli Piota e Gorzente, è possibile visitare il complesso delle ex miniere d'oro. È inoltre in progetto la realizzazione del "Cammino del Piemontesud", estendendo la rete escursionistica a tutto l'Appennino piemontese.

## **PO PIEMONTESE**

<http://www.parcopiemontese.it>

Dal 1° gennaio 2021 il nuovo Ente di gestione delle Aree protette del Po piemontese ha riunito le aree naturali protette del tratto torinese e di quello vercellese-alessandrino. È nata così una grande area che va dai confini con la Lombardia fino a Chivasso senza soluzione di continuità, per poi proseguire in modo intermittente fino alla provincia di Cuneo, dove si raccorda con il Parco del Monviso.

## **COZIE**

<https://www.parchialpicozie.it/>

Quattro parchi, due riserve e sedici siti della Rete Natura 2000 per oltre 35mila ettari tutelati che arrivano a sfiorare i 3500 metri di quota e ospitano le principali specie di ungulati d'Italia: cervi, caprioli, camosci, stambecchi, cinghiali e mufloni: queste sono le Aree protette delle Alpi Cozie.

## **TICINO - LAGO MAGGIORE**

*<https://www.parcoticinolagomaggiore.com/>*

L'Ente di gestione delle aree protette del Ticino e Lago Maggiore gestisce attualmente oltre 20 aree protette situate sul territorio di 60 Comuni, posti lungo la riva piemontese del Lago Maggiore e del Ticino, del Sesia, del Lago d'Orta, fino al confine regionale: luoghi ideali per momenti di svago nella natura.

## **PALEONTOLOGICO ASTIGIANO**

*<https://www.astipaleontologico.it/>*

La superficie tutelata del Parco paleontologico astigiano è di oltre 3.850 ettari, distribuiti tra il Parco Naturale di Rocchetta Tanaro, la Riserva Naturale della Valle Andona, Valle Botto e Val Grande, la Riserva Naturale della Val Sarmassa e le nuove Riserve naturali della Piana del Tanaro (istituite nel 2019), oltre a quattro Zone Speciali di Conservazione della Rete natura 2000 (Rocchetta Tanaro, Valmanera, Stagni di Belangero e Verneto di Rocchetta Tanaro).

## **OSSOLA**

<https://www.aareprotetteossola.it/>

Le Aree protette dell'Ossola comprendono il Parco Naturale "Alpe Veglia e Alpe Devero", il Parco Naturale "Alta Valle Antrona" e due siti della Rete Natura 2000 (la ZPS "Alte valli Anzasca, Antrona e Bognanco" e la ZSC "Alpi Veglia e Devero – Monte Giove"). Hanno inoltre costituito con il Landschaftspark Binntal (Svizzera) un parco transfrontaliero, il Binntal Devero Veglia Transboundary Park, che è il primo tra Italia e Svizzera e uno degli undici esistenti in tutta l'Unione Europea.

## **PARCHI REALI**

*<http://www.parchireali.gov.it/>*

I Parchi della Mandria e di Stupinigi, con le Riserve naturali del Ponte del Diavolo di Lanzo, delle Vaude e del Monte Lera, costituiscono i Parchi Reali. Ospitano tre importanti residenze sabaude (la Reggia di Venaria, il Castello della Mandria e la Palazzina di Stupinigi) e sei siti della Rete Natura 2000 e sono punti di eccellenza del sistema della Corona Verde che circonda Torino.

## **MONVISO**

*<http://www.parcomonviso.eu/>*

L'Ente Parco, nato nel 2016, gestisce territori protetti che si estendono dalla pianura cuneese, anche lungo il fiume Po, fino alla cima del Monviso e una grande varietà di ambienti (fra cui la foresta dell'Alevé, oltre 20 laghi alpini e 7 ettari di torbiere) che ospitano una peculiare biodiversità riconosciuta anche con l'individuazione di otto siti della Rete Natura 2000.

## **VALLE SESIA**

*<https://www.aareeprotettevallesesia.it/>*

L'Ente di gestione delle Aree naturali protette della Valle Sesia comprende i Parchi Naturali dell'Alta Val Sesia e dell'Alta Val Strona e del Monte Fenera e sette siti della Rete Natura 2000, inglobando così un'importante porzione delle montagne cusiane. Il Geoparco Sesia Valgrande è stato riconosciuto come "Unesco Global Geopark" per la rilevanza delle caratteristiche geologiche dell'area.

## PIEMONTE PARCHI

Piemonte Parchi è una rivista online di informazione e divulgazione naturalistica che raggiunge i suoi lettori con una newsletter settimanale che contiene: articoli di approfondimento, notizie e appuntamenti delle Aree protette piemontesi.

Ogni anno, Piemonte Parchi pubblica un numero speciale cartaceo a tema, in edizione limitata e scaricabile dal sito.

Per conoscere la rivista e iscriversi - gratuitamente - alla newsletter:  
[www.piemonteparchi.it](http://www.piemonteparchi.it)

Il Centro Stampa della Regione Piemonte è un polo tecnologico efficiente fornitore di stampati di qualità per gli uffici regionali, nonché per altre realtà del territorio piemontese: aziende sanitarie, enti strumentali della Regione, Camera di Commercio, Alti Comandi Militari, Accademia delle Belle Arti. Dal file al libro il flusso produttivo su cui si basa il lavoro è molto semplice: i file di testo vengono inviati dagli uffici regionali direttamente al Centro Stampa. I grafici studiano l'impostazione grafica, realizzano l'impaginazione e inviano il file alle macchine da stampa, gli addetti grafici ed esperti in editing elettronico si occupano dei processi di stampa in tutte le fasi della lavorazione.

Al Centro Stampa si producono biglietti da visita, carta intestata, depliant, brochures, pieghevoli, cartoncini per inviti, locandine, opuscoli, libri, riviste, stampe su plotter e scansioni fino al formato A0. Ogni ufficio regionale o ente esterno che si rivolge al Centro Stampa viene considerato a tutti gli effetti un "cliente".

**Settore:** Patrimonio immobiliare, beni mobili, economato e cassa economale - Centro Stampa

**Responsabile:** Ing. Alberto Siletto

**Sede Centro Stampa:** Via Pisano, 6 - 10152 Torino

**email:** [centrostampa@regione.piemonte.it](mailto:centrostampa@regione.piemonte.it)
