Project title	
Expertise offer	<p>A qualitative analysis is needed to complete the statistical data. Sub- Saharan African migrants have been transiting to Europe through complex pathways and this for many years.</p> <p>As a professional researcher in economic and social History having worked at the Cameroonian Ministry of Research and Innovation from 1985 to 2012, I have long practiced field surveys.</p> <p>So, I can offer:</p> <ul style="list-style-type: none"> -My ability to carry out a research program and to publish the results. -My knowledge on problems of migrations inside Africa in the past and nowadays: my inquiries on wars, transfrontier problems and conflict resolution can be found in a report at the Cameroonian Ministry of Scientific Research and Innovation. -My own experience as a traveler from Africa to Europe: since 1994, I have been travelling from Africa to Europe for research matters. I know the multiple administrative formalities which are necessary to obtain a residence permit. -Additionally, the confidence of the interviewed person is important. As a sub-Saharan African woman, I am in the best position to interview African migrants and to retrace their itineraries in detail <p>Some of my publications are relevant for this topic :</p> <p>1986 : Les mythes d'origine et les mouvements migratoires des populations de l'Est-Cameroun. Research Report, Ministry of Scientific Research and Innovation of Cameroon.</p> <p>1994 : « Dieu et le dragon : la saisie du vaincu de l'histoire », Ve congrès international de l'Association pour la Recherche Interculturelle à l'Université de la Sarre, Saarbrücken.</p> <p>2013 : « The Intercultural Question about E-Learning Program and the Use of New Technologies », IIIrd CUCS Congress, Torino, 2013.</p> <p>2013 : De la « mise en valeur » à la marginalisation : l'Est-Cameroun de 1905 à 1960, Paris, L'Harmattan, 2013, 413 p.</p>

Potential partners	<p><i>I am looking for a consortium conducting research on migrations from sub-Saharan Africa to Europe. A lot has already been done on the topic as seen in the conference report of the international conference, 4-5 February 2016, Brussels). I am going to contextualize the phenomenon of migration by highlighting continuity and differences with previous waves of immigration from sub-Saharan Africa, and by developing numerous and intensive case studies, so as to define a typology of the various trajectories of the subsaharan migrants to Europe.</i></p> <p><i>In order to foster improved responses for a successful integration of migrants in Europe, I will try to provide evidence based knowledge on the effect of migrations on social systems, labor markets and everyday-life.</i></p>
