

Il progetto comunitario INTERACT

Assessorato Ambiente - Direzione Tutela e Risanamento Ambientale Programmazione Gestione Rifiuti

Interactive Services and Management Support for
Environmental Impact Assessment and Permitting Procedures

INTERACT è un progetto **IST** (Tecnologia della Società dell'Informazione) finanziato nell'ambito del **5° Programma Quadro**, al quale la Regione Piemonte partecipa insieme ad altri partner italiani ed europei.

Attraverso **INTERACT** si intende creare un **sistema informativo integrato ed interattivo** a sostegno delle autorità pubbliche nelle procedure autorizzative ambientali e di valutazione d'impatto ambientale.

Interactive Services and Management Support for
Environmental Impact Assessment and Permitting Procedures

Coordinatori del progetto:

CH2M hill (Londra)

Rupprecht Consult Forschung & Beratung GmbH (Colonia)

Siti di implementazione:

Città di *Vitoria Gasteiz*

Città di *Colonia*

Città di *Praga*

Regione *Piemonte*

Provincia Autonoma di *Trento*

Federpiemonte

Sviluppo software:

IN+ (Monaco)

Hydrosoft (Praga)

CSI (Torino)

infoware (Colonia)

Assessorato Ambiente - Direzione Tutela e Risanamento Ambientale Programmazione Gestione Rifiuti

Interactive Services and Management Support for
Environmental Impact Assessment and Permitting Procedures

L'**obiettivo** di INTERACT è di **migliorare**:

- ✓ l'**efficienza** e la velocità delle procedure di valutazione e di autorizzazione ambientale
- ✓ i **tempi** delle procedure
- ✓ l'**interazione** tra autorità competenti e proponenti
- ✓ la **qualità** del servizio pubblico
- ✓ il processo di **messa a disposizione** dei dati ambientali

attraverso servizi informativi accessibili da uno **sportello virtuale**.

Assessorato Ambiente - Direzione Tutela e Risanamento Ambientale Programmazione Gestione Rifiuti

Interactive Services and Management Support for
Environmental Impact Assessment and Permitting Procedures

Il **proponente** attraverso il **Virtual Front Office** può:

- ✓ **documentarsi** sulla normativa e le procedure
- ✓ **scaricare** testi di legge e modulistica
- ✓ **informarsi** su altri progetti
- ✓ **consultare** *best-practice*
- ✓ **ottenere informazioni e dati** sull'ambiente
- ✓ **attivare la procedura**
- ✓ **seguire lo stato di avanzamento** della procedura

cioè...

interagire con l'autorità competente

Virtual Front Office/1 (prototipo)

The screenshot shows the 'The Interact Project' web interface. At the top is a banner with a landscape image, the 'interact' logo, the title 'The Interact Project', and the 'REGIONE PIEMONTE' logo. Below the banner are two main sections. The left section, 'ENVIRONMENTAL INFO ASSISTANT', contains a menu with links: 'what is EIA', 'what is IPPC', 'the Interact project', 'links', and 'contacts'. Below this is a dropdown menu labeled 'Are you interested in:' with 'All themes' selected and a 'Go' button. The right section, 'ENVIRONMENTAL PERMITTING ASSISTANT', asks the user to enter a username and password, with fields for 'Usr:' and 'Pwd:'. Below these fields is a link: 'If you're not registered, please, click [here](#)'. At the bottom of the interface is a banner with several small landscape images and the text 'Best viewed with Microsoft Explorer 5.0 1024 x 768 resolution'. Three orange circles with arrows highlight specific features: one circle around the menu links in the 'ENVIRONMENTAL INFO ASSISTANT' section points to the text 'Informazioni di base sulle procedure, sulla normativa, sui progetti'; another circle around the 'Usr:' and 'Pwd:' fields points to the text 'Accesso al Permitting Assistant'; and a third circle around the 'Go' button points to the text 'Accesso all'Info Assistant'.

Info Assistant (prototipo)

The screenshot shows the 'Interact Info Assistant' web application. The header includes the 'interact' logo, the title 'Interact Info Assistant', and navigation links: 'VirtualFrontOffice', 'PermittingAssistant', 'Contacts', 'Help', and 'About Interact'. A 'City of Prague' logo is also present. The main interface is divided into several sections. On the left, there are search filters: 'Theme' (set to 'ENVIRONMENT (Physical)'), 'Subtheme 1' (set to 'AIR'), 'Subtheme 2' (set to 'AIR POLLUTION'), 'Topic' (empty), and 'Area type' (empty). Below these are links for 'Simple search' and 'Help'. The 'Database' section lists two items: '1. Sample of database file (DBF) (detail info)' with the path 'ZIP:/samples/sample.dbf' and '2. Sample of GIS layer (SHP) (detail info)' with the path 'ZIP:/samples/sample.shp'. The 'GIS layer' section is also visible. The 'Map on line' section is at the bottom left. The main map area on the right is titled 'Balance of emissions generated by stationary sources in municipal districts - REZZO 1, state 1999'. It includes a 'Map tree' button and a toolbar with various map controls. A legend on the left of the map lists four categories: 'Sulphur dioxide' (yellow), 'Carbon monoxide' (blue), 'nitrogen oxides' (green), and 'solid matters' (red). The map itself shows a district with various colored bars representing these emissions. A small inset map at the bottom left of the main map shows the location of the district within a larger region. The status bar at the bottom right indicates 'Ready'.
